Last night's "Medics" was awesome! I cried when Miles and Wing couldn't to get get married in the emergency room because that really sick patient came in. Miles abled was able to save the patient's life, but the priest had to leave, so they couldn't had have the ceremony. Oh, well. There's always next session.

I just read I TV now that the actor who plays Dr. Miles might leave the show because of a contract dispute! He have has to be the most talented (and best-looking!) actor around. I love him! They had better renew his contract, or I'll stop watching.

I think they ought to handle more social issues on the show. They could do some more episodes about AIDS or teen pregnancy. It's good when a show be is able to entertain and educate at the same time.

Last episode shows Dr. Miles shaking hands with a sick patient and then eating an apple without first washing his hands. Come on now! You must not don't have to be a rocket scientist to know that you can get sick that way! The writers have had better check their facts!

Help! I just started watching “Medics” and I’m confused. Can anyone tells tell me what the relationship is between Tania and Jax? She can can’t be his mother, she’s much too young! I suppose she might be his sister, but I’m not sure that makes any sense.
