A

- 1 Some people don't approve of seeing a doctor unless they get into trouble.
- 2 The doctor looked at his tongue. The doctor also took his pulse and listened to his chest after he unfastened his shirt. And he also looked at his throat and took his temperature.
- 3 He went into the waiting room and collapsed on a chair.
- 4 The doctor told him "I'll give you a bottle of medicine that will help. Take a spoonful in water three times a day after meals. Be careful with your diet and have plenty of good plain food. Get plenty of fresh air and sleep." He also told the man "take it easy. Take a long walk along the cliffs or into the country."
- 5 Everything has changed for the better and he feels as fit as a fiddle.
