Read the following passage and fill in the table.

The Four Seasons

In most of North America there are four seasons: spring, summer, fall, and winter. Each season is about three months. The months of spring are March, April, and May. Officially, spring begins about March 22. The weather is usually cold and windy in March, but there are some warm days. There is a lot of rain in April, but May is usually sunny and beautiful. In May the plants and trees become green, and there are flowers of many colors.

Summer starts about June 22 and includes the months of June, July, and August. In June, school ends and vacation begins for many students. It is very hot in the summer, so people often go on picnics and go to the beach.

After summer comes fall. It begins about September 22. Vacation ends and school starts again in September. The weather is usually nice in September and October, not too hot and not too cold. The leaves change color and become yellow, red, and brown. The colors are very beautiful, but then the leaves fall from the trees.

Winter is cold in most parts of North America. It starts about December 22. The winter months are December, January, and February. In many places it snows in winter, and people go skiing and ice-skating.

Season	Months	Begins on
Spring	march-APRil- may	march 22
Summer	june-july- August	june 22
Fall	september-october-november	september 22
Winter	December-january- february	December 22

Dear Joe,

We're camping on a farm in the north of Italy, and we're having a lovely time. I really enjoy sleeping in a tent – it's great fun. There's a lot to do here. Yesterday morning we all played volleyball, and in the afternoon we went windsurfing on a lake. And this morning, I rode a horse! I was quite frightened, actually, but the horse walked very slowly, and I didn't fall off! Today we're going on a long walk in the hills, and this evening we're going to light a fire and cook some sausages. We want to buy some presents, so tomorrow we're going shopping in Verona! This is a wonderful place: the food's great, the weather's lovely and hot – but the best thing of all is that I don't have to go to work!

See you next week,
Mark

Are the following statements T (true) or F (false)?

Guidelines on the Remedial Tests

The remedial tests serve two purposes. First, they give you a general idea of how well you have learned the materials in the Student's Book, and second, they make you familiar with the question types and overall format of the final exam. Read the following points carefully before taking the tests:

1. Make sure you have studied all units of the Student's Book completely before taking the tests.
2. There is an answer key along with explanatory answers at the end of the Workbook. This will help you check your answers and find the problematic areas, if any.
3. Each test consists of the following parts, number of items, and the related points:

	Parts	Number of items	Points
I	Listening Comprehension	10	20
II	Vocabulary & Pronunciation	20	30
III	Grammar & Functions	20	30
IV	Reading Comprehension	10	20
		Total items: 60	Total points: 100

4. Note that each item in "Listening Comprehension" and "Reading Comprehension" parts has 2 points, while the rest of the items have 1.5 points, each.

A minimum score of 75 is needed in order to pass the course. So, if you get a score around 75 or below, it shows that you need to find your problematic areas and work on them before you take the actual final exam.

PART IV. READING COMPREHENSION

READ THE FOLLOWING PASSAGES CAREFULLY AND CHOOSE THE CORRECT ANSWER A, B, C OR D TO EACH QUESTION.

PASSAGE ONE

Penguins are among the most popular of all birds. They only live in the South Pole and the continent of Antarctica. No wild penguins live at the North Pole. There are many different kinds of penguins. The largest penguin is called the Emperor Penguin, and the smallest kind of penguin is the Little Blue Penguin. There are 17 different kinds of penguins in all, and none of them can fly. Penguins have to be able to live in some of the Earth's coldest and windiest conditions. They are great swimmers and have thick layers of fat to protect them from the bitter cold. Even in their freezing cold environment, penguins still have to be careful about killer whales and seals.
